Are you prepared for the fall semester?

Protect your property
Backpacks, computer bags, briefcases and purses left in plain sight can make your vehicle a target for theft. Take your valuables with you or hide them before you leave your vehicle. Also make sure all the windows are rolled up and your vehicle is locked after you park. Although our campus is safe, crime can happen anywhere.

Get ready for the fall semester
Here are some pointers to help you prepare for success at IVC:
1. Familiarize yourself with the campus and the parking lots ahead of time (if possible). Know where you will be parking.
2. Buy your parking permit through MySite before the semester starts to avoid lines at permit dispensers.
3. Arrive early, especially during the first two weeks of classes, as there will be delays.
4. Bring your class schedule and a campus map to assist you in finding buildings and classrooms. www.ivc.edu/about/maps
5. Pay attention to traffic signs that restrict stopping, parking and drop offs in specific areas.
6. Before you leave home, make sure you have your necessary items such as books and school supplies.
7. Remember, a good attitude will be contagious and will positively affect those around you!

If you SEE something, SAY something
You can help Campus Police keep IVC safe by telling us right away if you see something suspicious, whether it be a person, situation or item. Reports can be made anonymously so don’t be afraid to speak up! When you see something that just doesn’t look right, telling Campus Police as soon as possible helps us respond immediately to assess, evaluate and take appropriate action.
